On Page 7, Paragraph 4:

*Sub E₃
B*

The commonly assigned application Serial No. 08/634,543 and U.S. Patent No. 6,069,890, identified more particularly above, are concerned with providing telephone service via the Internet to users of the public telecommunications network who may not have access to a computer or separate telephone access to the Internet. Such service would be economical, especially for long distance calls, compared with the toll rates charged by long distance interexchange ~~carriers.~~
